Brand styleguide

Academic Year 2025 - 2026

AWS Cloud Clubs Logo

In order to present a united visual identity for AWS Cloud Clubs on social media, please take note of these rules for representing your Club online. In general, we support the creation of your own social media handles, LinkedIn groups, and web sites. However, certain standards apply.

Most importantly, please do not represent yourself or your Club as an employee or affinity group of AWS. Do not use the AWS logo in your social media profiles. Instead, use the Cloud Club logos in the Captain's library on Box.com when discussing your Club activities.

1. **Cloud Club Logo Guidelines:**
   You may use the Cloud Club logo as outlined in the Handbook. Do not alter it to suit your club, with the exception of adding the name of your institution underneath. Please also be aware that your own institution may have rules around the use of its name to delineate affiliation. An example of a local Club's LinkedIn logo would look like the image below. A good example can be found here: https://www.linkedin.com/company/aws-cloud-community-lpu/

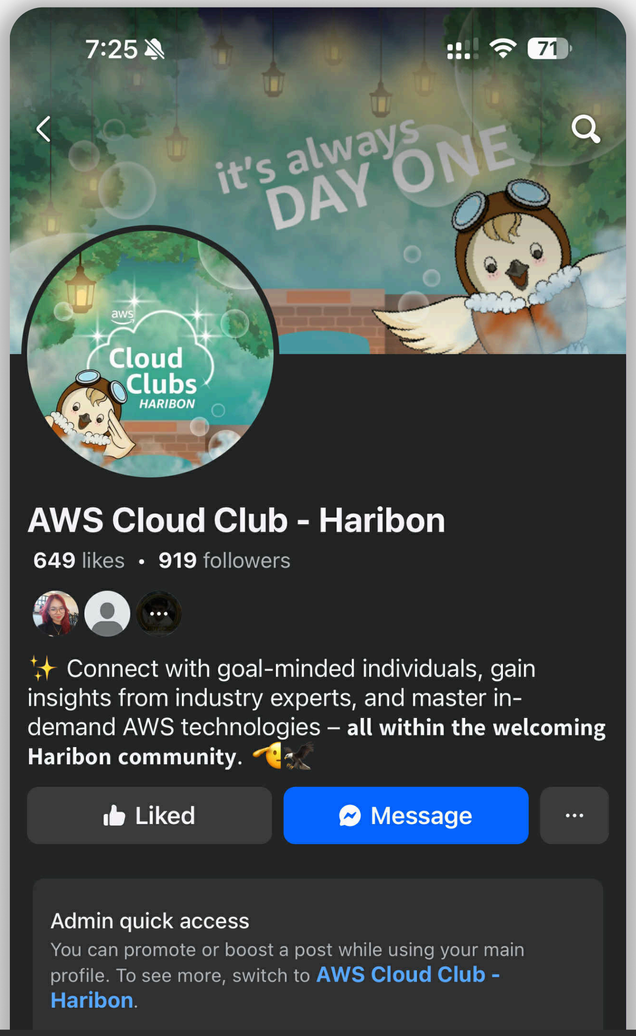
AWS Cloud Clubs Logo

② **Social Media guidelines**
Please ensure that you follow the Code of Conduct affiliated with our programs when posting on social media.
Use the tagging strategies and imagery available in the Handbook and on Box.com.

③ **Don't**
Please do not use the AWS logo in your social media outreach. Instead, use the AWS Cloud Club logo which has AWS embedded and is approved by Branding.

④ **Other acceptable uses of the AWS logo**
You can use the AWS logo on your presentation slides, but be sure to follow these guidelines Take a look at the guidelines here on logos to use https://aws.amazon.com/trademark-guidelines/ - and use the most up to date logo.

The Seal



Moodboard

Pinterest: https://pin.it/20vvIE1nE
The AWS Cloud Clubs Haribon visual identity is built to reflect a brand that's hopeful, curious, and human. It blends clean tech visuals with playful, nature-inspired design

1. **Bright Sky and Cloud Motif**
   A smooth gradient of vibrant blue evokes clarity and the open cloud. Soft white clouds and floating bubbles create a dreamy, approachable feel, reflecting accessibility and openness.

2. **Natural Accents**
   Blurred green leaves around the edges add freshness and vitality, supporting the theme of organic community growth.

3. **Stars, Bubbles, and Glowing Accents**
   Floating stars, bubbles, and glowing accents introduce a subtle magical feeling, tied to discovery and imagination.

4. **Doodles and Scribbles**
   Doodles should be used sparingly but intentionally—never to overcrowd, but always to enrich.

5. **Glassmorphism**
   Bring a modern, cloud-tech aesthetic into the visuals and create visual depth and contrast while maintaining clarity

Colors

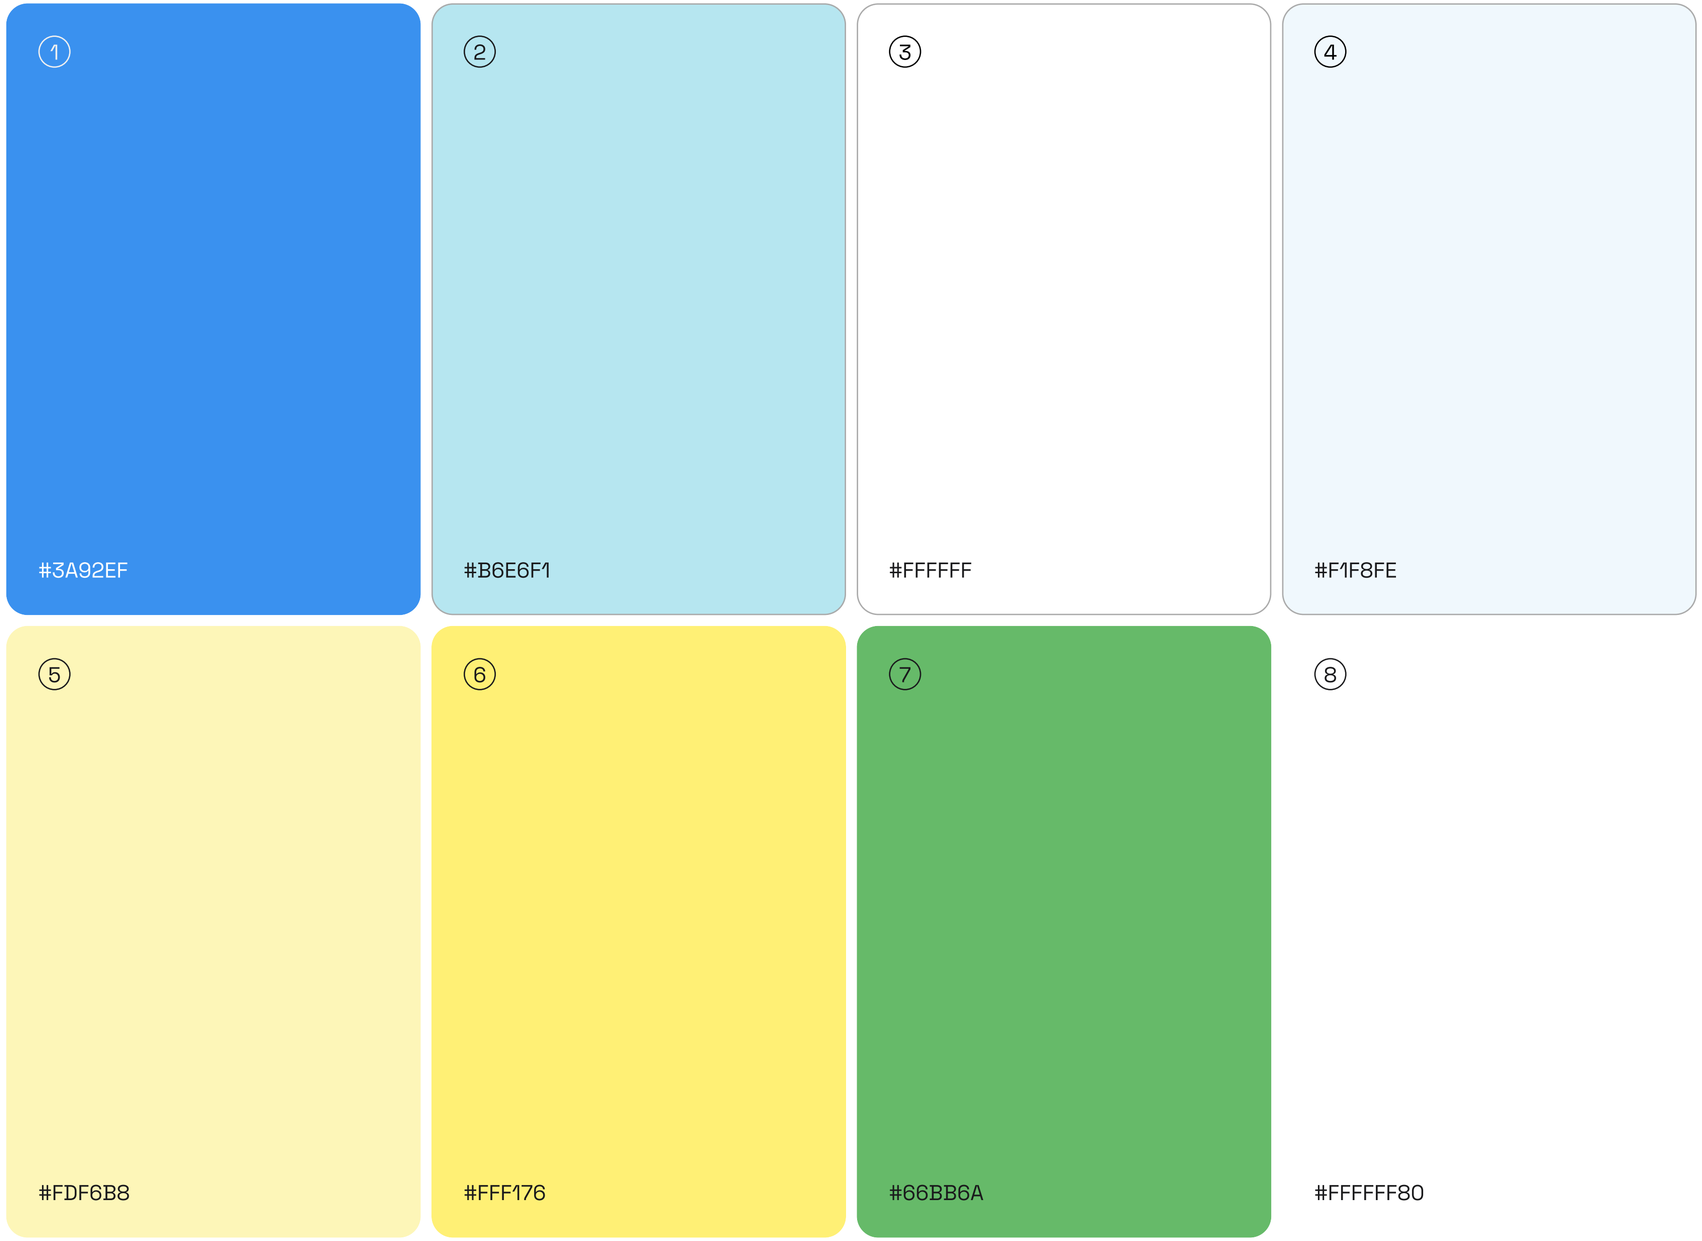
The palette balances fresh, natural tones with vibrant highlights. Colors should be bright, approachable, and never harsh.

① **Primary colors:**
- Sky Blue
- Cloud White

② **Secondary & Accent Colors:**
- Sunbeam Yellow
- Leaf Green
- Glass Gray (Translucent)

③ **Tertiary:**
- Azure Gradient (Sky Fade)
- Soft Shadow Gray
- Transparent Orange Gradient

While these are the core brand colors, creatives are not limited to using only this palette. You're encouraged to explore other complementary shades—especially in the blue, white, yellow, and green families—**as long as they align with the visual tone of clarity, warmth, and friendliness.**



Gradients

Most brand colors are not used flat—they are applied in soft gradient blends.

1. Create subtle motion and flow
2. Add depth and emotion to layouts
3. As much as possible avoid flat or static blocks of color

While these are the core brand colors, creatives are not limited to using only this palette. You're encouraged to explore other complementary shades—especially in the blue, white, yellow, and green families—**as long as they align with the visual tone of clarity, warmth, and friendliness.**

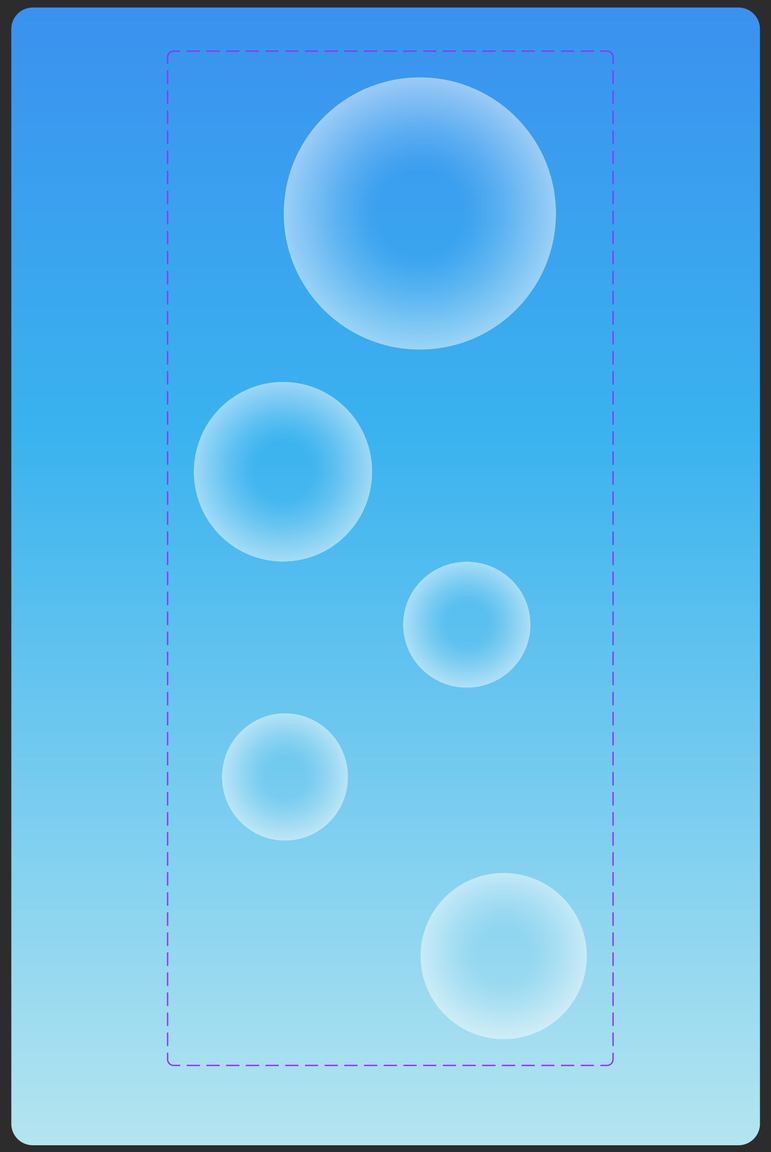
Font

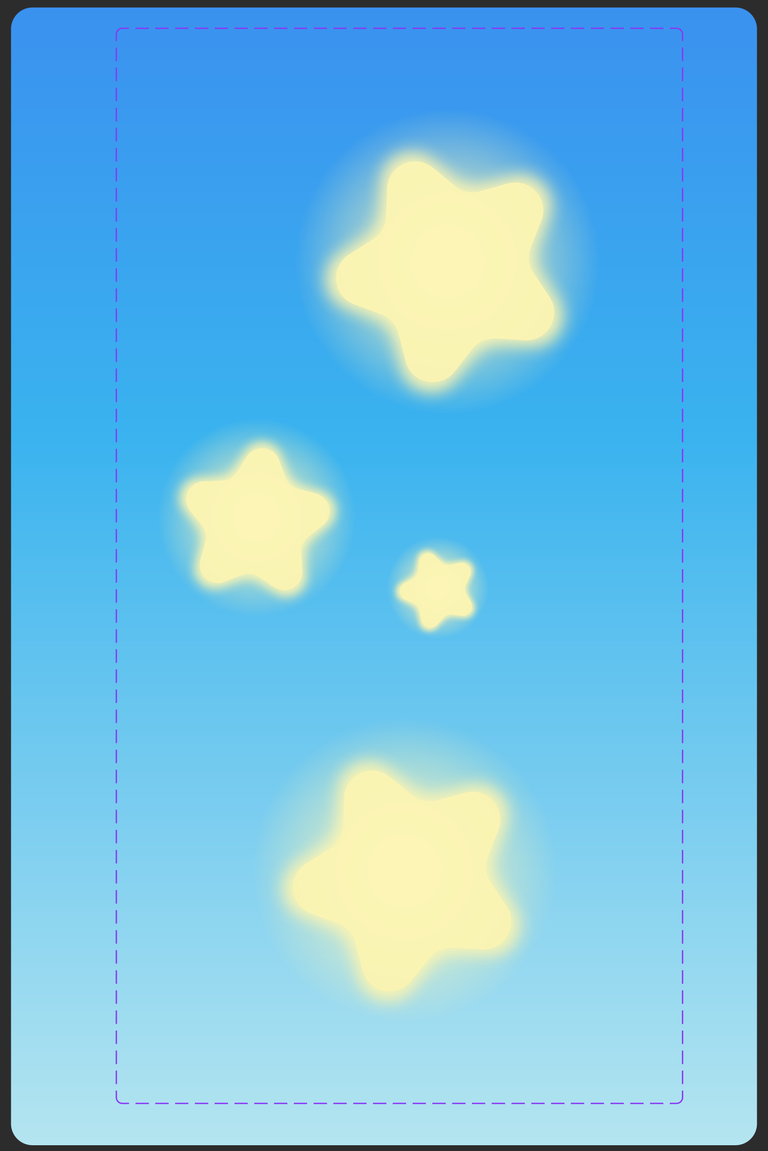
Make sure that fonts used are readable and maintain professionalism, and personality of the organization. For general postings, use these fonts:

1. **Montserrat**
2. **Amazon Ember**
   Download Font Here: Amazon Ember

Don’t use black fonts. Use white fonts instead and add drop shadow to add depth.

General Assets





Doodles
Doodles and Scribbles are not limited to this. To add our own twist, add glowing effect to the doodles.

You can use the Figma plugin called “Glow.”

Glow Plugin:
https://www.figma.com/community/plugin/1078011857203492445

Glass Morphism

Use Liquid glass morphism to add a modern look and to make text more readable.

Make sure to add round edges to the text box.

You can also add glass effect to texts as long as it is readable

Add frost to the glass morphism if text is still not readable or try changing the shade also.

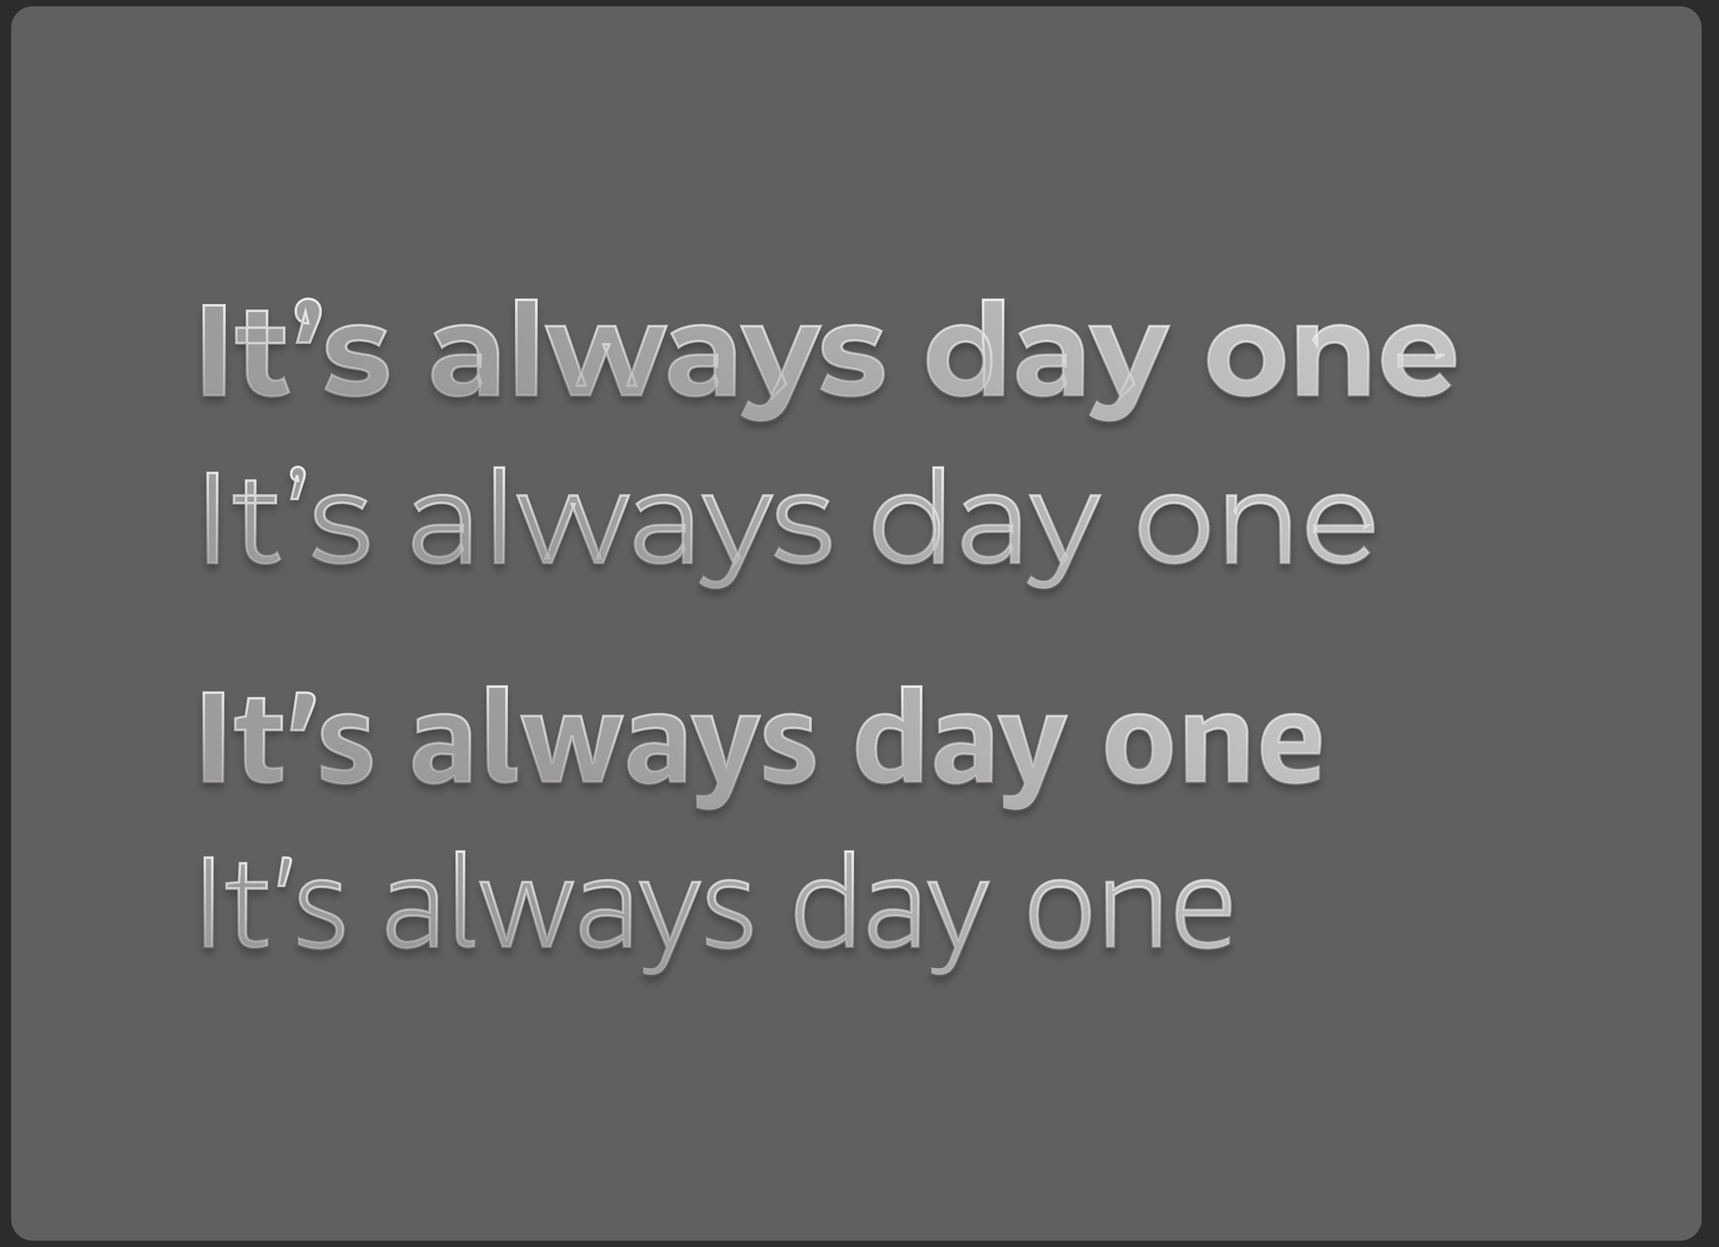
Glass Morphism

Use Liquid glass morphism to add a modern look and to make text more readable.

Make sure to add round edges to the text box.

You can also add glass effect to texts as long as it is readable

Add frost to the glass morphism if text is still not readable or try changing the shade also.



Social Media Watermark

Adding Social Media Watermark is a subtle way to build brand recall across platforms.

AWS Cloud Club - Haribon awscc.haribon@gmail.com

Mascot (Bonee)

NAME: Bonee
NAME ORIGIN: A playful twist on ”HariBON” (Hari ng Ibon – ”King of Birds”).

Bonee, the official mascot of AWS Cloud Club - Haribon, is a young Philippine eagle, the national bird of the Philippines and the namesake of AWS Cloud Clubs Haribon. But rather than being majestic and intimidating, Bonee is designed to feel relatable and friendly.

Visual Identity

1. Cloud Aviator
2. Bright and curious eyes
3. Fluffy feathers and egg shaped body
4. Usually paired with bubbles or stars
5. PLM Torch badge

Mascot (Bowee)

NAME: Bowee
NAME ORIGIN: A sister character to Bonee, her name comes from “bow” + Bonee.

Bowee is the official mascot of the **Skill Builder Team**, the technical core of AWS Cloud Clubs Haribon. Her signature head bow and sleek look bring balance to the mascot duo—showing that cloud builders come from all backgrounds, with all kinds of energy.

Visual Identity

1. Cloud Aviator
2. Bright and curious eyes
3. Fluffy feathers and egg shaped body
4. Usually paired with bubbles or stars
5. PLM Torch badge
6. Everything is Pink including her bow.
